

## **Totem Animals (Intro class and ceremony)**

Have you ever noticed being attracted to different animals?

An animal in the wild, a pet, something in a movie? Your attraction could be a sign that this animal has something to teach you. The animal world has the potential to remind us of our naturalness. They can help us remember what's important to us, how to adopt new perspectives, which skill to use in a different situation. The answers to our prayers, our questions and requests from spirit, often arrive on the wings of a bird, the gait of a cat or the appearance of a bee. Learn how to 'hear' the teachings from the animal world. Discover a deeper connection to the natural world. Find new parts of yourself that help you naturally shine.

DATE: Tuesday, XXXXX XX, 2010 from 6:30 - 9 pm
